

Moray Chamber of Commerce

VV Case Study

Lean Awareness Training

Viable Ventures Ltd (VV) regularly delivers Lean Training packages - from the Board Room to the Shop Floor. These training packages can be delivered either as stand-alone training sessions or they can be incorporated within larger Lean improvement projects. Both options are tailored to ensure maximisation of each clients' ability to sustain and grow their Lean improvements.

This example showcases a typical example of a stand-alone Lean training activity, which was delivered as a one-day introduction to Lean Thinking for member firms of the Moray Chamber of Commerce. The course was attended by employees from the whisky industry, from the manufacturing sector and from the MOD.

The course was highly praised by all who attended and covered a typical syllabus including a brief history of Lean, the Principles of Lean, the Lean Wastes, 6S workplace management, Visual Management, Value Stream Mapping, Lean in service environments and Sustainment issues.
